

# Expand Your Virtual Care Services

## NextGen Virtual Visits™ Group Visits

Through a virtual visits platform, your patient group visits can become more efficient and impactful. You can expand education and activities to promote interaction beyond the walls of your practice.

### Convenience, efficiency, and expansion of care

#### For patients:

- Participate in group visits while at home
- Eliminate the hassle of driving to your practice
- Fit classes around busy schedules

#### For practices:

- Increase attendance with more conveniently scheduled classes
- Conduct group visits back-to-back with one provider
- Reduce no-shows
- Save time and effort by not having to prepare for in-office gatherings

### Examples of specialties that can benefit from virtual group visits

- CHCs and FQHCs
- Behavioral health
- Women's health
- Primary care
- Orthopedics

#### Use cases

- Diabetes management classes
- Peer support meetings
- Recurring education classes
- Medication management sessions
- Chronic-care management
- Pregnancy and new parenting classes
- Nutrition workshops
- Group therapy
- Preoperative patient education

## Virtual group visits functionality

Besides extending the reach of your practice, the group visits feature of NextGen Virtual Visits enables you to:

- Increase documentation efficiency with integration into the EHR and PM system
- Access control panel to mute, unmute, and remove patients if necessary
- Use Interpretive Language Services
- Share screens and documents

## Additional functions that make virtual group visits practical

Secure video/audio platform (HIPAA-compliant and HITRUST certification)

In-app guidance and resources

Ability to test a device before a visit

Integrated into the practice management system and EHR

Automated email/text reminders

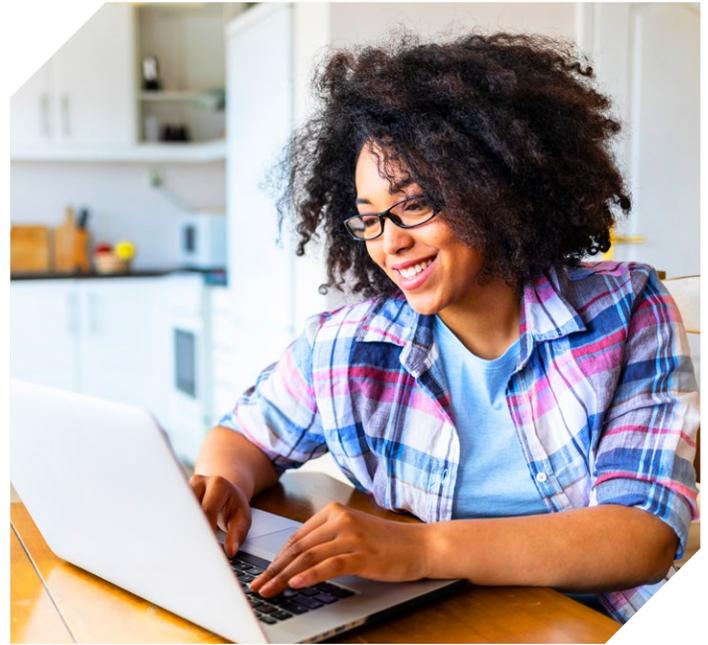

Simple and secure one-click patient access

Customizable experience

Login-less patient experience

## Guest visits feature

Guest visits help keep everyone concerning the patient's care on the same page.

Patients can invite family members, caregivers, and others to their virtual visits. Your practice can also ask outside specialists and other care team members to participate in a patient's virtual visit. Guest speakers can also play a part in your virtual group visits.

## Capitalize on the power of partnership

NextGen Healthcare provides seamless integration with NextGen® Enterprise and a simple implementation process tailored to your needs. By understanding your workflow, we ensure a smooth user experience. As a result, you can easily connect with your patients on any device and better manage workflows throughout your practice.

Please note that in order to utilize the group functionality in practice management for virtual group visits, clients will need to be on **NextGen Enterprise PM/EHR version 5.9.1** and above.
